MANN KI BAAT

In today's digital age, humanity has made significant progress in various services & facilities, leading to a more comfortable life. However, despite overcoming health issues, financial dissatisfaction, and other problems on a daily basis, we often forget that these trivial issues can destroy our everyday happiness. It is worth noting that our country, India, was once an advanced and developed nation, providing us with profound knowledge in fields such as Ayurveda, astrology, yoga, & Vastu Shastra. Unfortunately, so called "experts" in Vastu Shastra focus more on conducting rituals and selling products like pyramids. The incomplete knowledge possessed by these so-called "experts" often compels them to prioritize selling rings, jewellery & performing rituals in the Name of Vastu
